DELIVERY TIME

The flowerbulb crop for fall planting arrives in the U.S. in mid-September. Planting time is late September through December. We ship to colder areas first, working our way south (and west) as the weather cools. You can request delivery during a particular month by checking a circle on the order form under Delivery.

BLEND PACKING

Blends are mixed in the Netherlands before packing. If you are interested in ordering a variety that is part of a blend, ask us about it. We may stock it separately.

PRECHILLING: FOR WARM CLIMATES

In the Deep South, the desert Southwest, and most of California, bulbs need to be prechilled in a refrigerator for 6-12 weeks before planting. For more information on prechilling, please visit colorblends.com or give us a call.

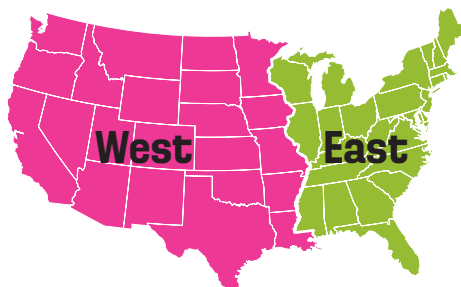

THE COLORBLENDS GUARANTEE

Colorblends guarantees its bulbs the first spring after planting. After that, it's in nature's hands. Our liability is limited to the purchase price of the flowerbulbs.

If there is a problem with an order, please call us within 5 days from receipt of the order.

Shipping charges

Small package orders are shipped via FedEx. Pallet orders go by LTL carrier.
