

Tulip Blends

Blends are choreographed displays that will change how you think about tulips. Bulbs come pre-mixed in bags of 100. Just plant in fall, enjoy in spring.

1514

Height	Bloom Time	Bulb Size
16—25 in	Early-Mid to Late	12cm+

Yellow Squared™

1591

Height	Bloom Time	Bulb Size
16—24 in	Early-Mid to Mid	12cm+

Tulip Singles

Sometimes a single variety is what you need. Here you'll find a broad selection of tulips: early to late, short to tall, and in almost every color save blue.

Wild Tulips

The forebears of the big hybrids. Planted in a sunny, well-drained location, they can come back for two or three years. All of our bulbs are from commercially grown stock.

Landscape-Size Daffodils

Colorblends prides itself on shipping big bulbs for maximum impact. But if money is tight, these smaller, Landscape-Size (LS) bulbs can be a great value.

Daffodils for the South

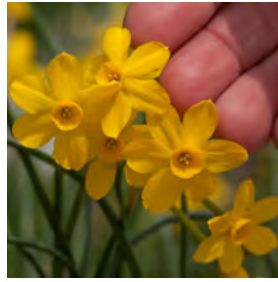

Most daffodils grow well through Zone 7 and into Zone 8 in the southeastern U.S., but the varieties below can perform satisfactorily through Zone 8 and into Zone 9, which includes much of what is called the Coastal South. We don't recommend daffodils in southern Zones 9b, 10 or 11.

Hyacinths

After a winter spent breathing stale indoor air, you can't help but revel in the sweet scent of hyacinths. But wear gloves when planting the bulbs in the fall. They can make you itch!

Alliums

These relatives of onions bloom in late spring and need sun and good drainage. The leaves yellow as the flowers open: Plant with perennials or low shrubs to disguise the foliage.

Amaryllises

Amaryllises are showy bulbs that must be grown indoors in most of the USA. Place them in a sunny window, and they will bear huge flowers in the depths of winter.
